

CLASS 1

## Building Product Information Sheet

**Product name:**

Everhard EasyDRAIN Compact

**Product description and its intended use:**

Everhard's extensive range of surface water drainage systems are designed for various residential & commercial outdoor drainage projects and made to withstand harsh weather and environmental conditions.

Surface water drainage is essentially the removal of excess water from the surface and into a drainage system in a controlled manner and as quickly and effectively as possible.

**Product identifier** *(if applicable):*

Everhard EasyDRAIN Compact

*(This could be a Global Trade Item Number (GTIN) or quick response code (QR code), or any other distinguishable part/model number or identifier.)*

**Place of manufacture:**  Aotearoa New Zealand  Overseas

**Legal and trading name of the manufacturer(s):**

Everhard Industries Pty Ltd

**Address for service:**

Level STREET NAME 454 Newman Rd SUBURB Geebung

CITY, COUNTRY Brisbane, Australia POSTCODE 4034

**Website:**

www.everhard.com.au

**Email address:**

info@everhard.com.au

**Phone no.** *(if applicable):*

**NZBN** *(if applicable):*

Legal and trading name of the importer (if applicable):

ACM (NZ) Pty Limited

Address for service:

STREET NAME 47 Stonedon Drive

SUBURB East Tamaki

CITY, COUNTRY Auckland, New Zealand

POSTCODE 2013

Website:

www.acmhardware.com

Email address:

info@acmhardware.com

Phone no. (if applicable):

+64 9 320 4515

NZBN (if applicable):

9429030191990

### Relevant Building Code

B2.3.1(c)

E1.1/E1.2

E1.3.1/E1.3.2

E1.3.3

### Statement on how the building product is expected to contribute to compliance:

**B2 Durability**

This product is a component within the plumbing services of a building, typically controlling the flow water at a terminus, is easy to access and replace, and failure would be easily detected during normal use.

**E1 Surface Water**

The objective of this provision is to safeguard people from injury or illness, and other property from damage, caused by surface water, and protect the outfalls of drainage systems.

- options for compliance set out in section 19 of the Act (regulations, acceptable solution, verification method)
- standard or technical document that describes the performance of the building product or the relevant specifications to which the building product was manufactured
- physical properties of the building product
- how the building product is intended to be used.

### Limitations on the use of the building product:

Manufactured from 100% recycled polymer

Polymer is suitable for salt and chemical affected areas (pools, coastal areas)

175L/min/ metre flow rate, 1.5 tonne wheel loading, Class A grate

Suitable for: outdoor areas, low rainfall and water flow areas, gardens, walkways and adheres to industry standards AS1428 - designed for access and mobility.

**Design requirements that would support the appropriate use of the building product:**

Made in Australia, from 100% recycled polymer, EasyDRAIN Compact channel is a sustainable and eco-friendly drainage choice for homeowners and installers.

With a shallow, yet functional internal channel depth of 80mm and components to suit various configurations, EasyDRAIN Compact can effectively hold and distribute surface water efficiently.

System components available include tee piece, corner piece, end cap, converter and slim pit.
