Relevant Building Code

B2.3.1(c)
F2.3.1
G12.2

Statement on how the building product is expected to contribute to compliance:

Durability B2.3.1(c)

Kinetic Mini Cistern Valves warranty is valid when installed in accordance with the relevant installation standards.

Hazardous Building Materials F2.3.1

Kinetic Mini Cistern Valves range does not give rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space as per requirement.

Water Supplies G12.2

Kinetic Mini Cistern Valves range meets the requirements of AS/NZS 4020 potable water standards and has components that wouldn't contaminate the water as per requirement G12.2.1. and is durable and fit for purpose.

- options for compliance set out in section 19 of the Act (regulations, acceptable solution, verification method)
- standard or technical document that describes the performance of the building product or the relevant specifications to which the building product was manufactured.
- physical properties of the building product
- how the building product is intended to be used.

Limitations on the use of the building product:

Suitable to be used on sinks and toilets.

Allows water to be shut off without shutting off the water mains.

Controls water flow
